Search by Restaurant:

A hand-drawn UI mockup for a restaurant search interface. At the top, a search bar with a magnifying glass icon and the text "Search Food by Name" is highlighted with a red border. Below it, the text "Restaurant Page" is written in a lighter, greyish font. The main content area features three rows of food items. Each row starts with a circular placeholder for a food image. The first row's circle contains the word "food". To the right of each circle is a rounded rectangular box containing the text "Ingredients Used", followed by two smaller rectangular boxes labeled "Price" and "Qty". On the right side of the interface, there is a rounded rectangular box containing a bulleted list of food categories: "Chinese", "Breads", "Main Course", "Starter", and "Addons".

PROFILE PAGE:

A hand-drawn sketch of a user profile page layout. The page is enclosed in a rounded rectangle. At the top center is a placeholder for a profile picture, represented by a rounded square containing a simple person icon. Below the picture is a rectangular box labeled "user name". In the top right corner, there is a small circular icon containing a pencil, indicating an edit profile function. Below the name box, the page is divided into three columns. Each column has a header box at the top: "Past Orders", "Frequently Ordered", and "Order Reviews". Below each header is a large, empty rounded rectangle representing the content area for that section.
